Supplemental Amendment

Dear Examiner Pwu:

Thank you for speaking with me recently with respect to my patent application, #09/489,739. I appreciated your comments, and I am taking advantage of your offer to provide a revised set of claims under this Supplemental Amendment. The set of claims attached hereto address the concerns you raised regarding the unity and functionality of my claims pending for your examination, pursuant to my elected group of invention, Group I, by previous restriction.

Please enter my enclosed set of claims, numbered claim 39 through claim 50, and delete my set of claims, numbered claims 26-38. My enclosed set of claims replaces my set of claims which I informally submitted to you, by my fax to your fax coordinate, on 2/14/03.

Thank you.

Sincerely,

David Andrew D'Zmura (pro-se independent inventor)
